SOURCE

1. It was ascertained the afternoon of 6 September 1949 that the PILSEN (N 50/L 04) airfield was probably occupied by a fighter unit. Only single-engine aircraft were parked outside the hangars. Soviet aircraft were not seen. There was no flying. No military equipment had recently arrived at the airfield.
2. Three two-place biplanes took off from the adjoining airfield of the ZAPADOCESKY Aero Club, circling over the airfield for about 15 minutes.
3. The entire airfield area was surrounded by a fence and was strictly guarded. Sentries patrolled the fenced area.

25X1A [REDACTED] Comment: The data on the occupation of the PILSEN airfield is considered credible since it agrees with information of June 1949, according to which the 4th Ftr Regt is stationed at this field. No reports on the presence of a Soviet air unit in PILSEN have been received.
